

Euroline line JA9500BT-E Brake, shock absorbers and alignment testlane

Jema Autolifte A/S
we are here to surprise!

Euro line Brake, shock absorbers and alignment testlane

JA9500BT can in only 30 seconds. test vehicle brakes, shock absorbers and alignment!

With the JA9500BT, the workshop can, with the customer's car, make the test with the customer so the customer can see any defects or corrections that the car should have at the service at the workshop.

After the test is completed, a test report can be printed which demonstrates the condition of brakes, shock absorbers and alignment!
